SKILLS:

Expertise: HTML5, CSS3, Bootstrap, Tailwind, DaisyUI, JavaScript(ES6), ReactJS, Firebase, Rest API.
Comfortable: ExpressJS, MongoDB, NodeJS, React Awesome Components, Axios, Rechart.
Familiar: JSON Web Token, Data Structure, Redux, TypeScript, MySQL, and NextJS.
Tools: VS Code, GitHub, Vercel, Netlify, Surge, WordPress, framer, Chrome Devtool, Canva.

EXPERIENCE:

Front-end developer

Coding Symmetry - Texas, USA [June 2023 - Present]

Responsibilities:

- Skilled Front-End Developer: Enhanced user interfaces, ensuring seamless user experiences.
- Recently, I have been monitoring the new intern students and leading their projects as well.
- CMS Expertise: Contributed to Content Management Systems, showcasing adaptability and proficiency.

PROJECT:

❖ **Royal Rent** - Luxurious car rental website [Live Link | Github Client | Github Server]

Technology: ReactJS, ExpressJS, MongoDB, Firebase, Tailwind, DaisyUI, AOS, GitHub.

My Contributions:

- Design a chic homepage for easy navigation and an inviting user experience.
- Engage users with insightful comments and ratings, enhancing informed car selections.
- Responsive Design: Optimized for seamless user experience across all of the devices.

❖ **World Speak** - Buy and sell language expertise [Live Link | Github Client | Github Server]

Technology: React, NodeJS, ExpressJS, MongoDB, Axios, Tanstack Query, Payment Gateway.

Feature:

- Role-based User Management: Enables admins to assign roles (student, instructor, admin).
- Class Approval Workflow: Admins review and approve instructor-submitted classes before making them available to students.
- Payment Integration: Seamless integration of a secure payment system for students to purchase.

❖ **Doll Mart** - Simple e-commerce multivendor website [Live Link | Github Client | Github Server]

Technology: React, NodeJS, ExpressJS, MongoDB, Context API, Firebase, Tailwind CSS, DaisyUI.

Feature:

- DollMart Seller System: Simplifies product management for sellers—add, update, and remove.
- Firebase Authentication: Enables hassle-free login using GitHub and Google.
- Improved UI: Advanced search, intuitive tabs, and animations for precise product exploration.

COURSES:

MERN Stack Web Development - Programming Hero [Jan 2023 - Present]
Web Development - SoroBindu [Jan 2022 - June 2022]

EDUCATION:

Diploma in Computer Science & Technology(CST) [2019 - 2023]
Moulvibazar Polytechnic Institute, Moulvibazar, Sylhet

LANGUAGE:

Bangla - Native
English - Fluent
